

TOKA

Gamifying Household Responsibility. Tokenizing Financial Literacy.

A decentralized family micro-economy — built on the **Stellar Network**

Stellar logo · Soroban logo · Build on Stellar Philippines 2026

The Problem

Invisible Remittances

₱1.6 Trillion sent home by OFWs annually — then parents lose visibility into how money is spent.

Financial Illiteracy

1 in 3 Filipino youth have never held a savings account — no practical exposure to earning, saving, budgeting.

Unrewarded Labor

₱0 — most household chores go unrecognized and unrewarded, hiding a massive informal economy.

"We're missing a system that ties responsibility to real, verifiable reward."

Meet Toka

Hero: A mobile app that turns family chores into a real, on-chain micro-economy.

- **Non-custodial wallets**

Keys never leave the device — custody stays with families.

- **Real-time feedback**

Push notifications for instant motivation and behavior reinforcement.

- **IPFS proof-of-chore**

Immutable photo evidence for trust and auditability.

- **Soroban smart contracts**

On-chain task lifecycle ensures enforcement without intermediaries.

What We Built

Anchor Dashboard

Parent views tasks, TOKA vault balance, and family members at a glance.

Task Approval

Photo proof via IPFS — one-tap approval triggers Stellar payment.

Earner Wallet

Live TOKA balance, transaction history, and savings goal tracker for kids.

Family Marketplace

Sibling auctions, reward store, and fiat cashout with savings multipliers.

Contracts:

Mainnet: CBNKIN4EGJDUGPZXZ4JYGMNYVAGDM2HRKFEX57RG3OLCZSMZKGPVAWFN

Testnet: CC55Z5AYNCFCHUVEA3R2WNDQTYGOUWBF7QK3KMWEUANFB5JQMUGXIZLT

Beyond the Basic Chore App

XP & Level System

Achievements and non-monetary recognition to sustain engagement.

Savings Account + Interest

Parent-configured APR teaches compounding and delayed gratification.

Household Taxes

Auto-collection demos how real-world deductions work.

Sibling Auctions

Supply & demand, bidding mechanics — hands-on economics for kids.

Collaborative Quests

Teamwork with split rewards and shared goals.

Mystery Loot Box

Safe risk vs. reward mechanics to learn probability.

Co-Parent Multi-Approval

Logical multi-sig controls — both parents can approve payouts.

Recurring Scheduler

Daily/weekly tasks automate habit formation and financial routines.

"Toka doesn't just reward chores. It teaches an entire financial vocabulary — inside the family."

Built on Stellar — By Design, Not by Accident

Micro-Reward Economics

Transaction fees:
\$0.00001 — sub-cent transfers enable meaningful micro-payments like ₱5 for chores.

3-Second Finality

Instant settlement removes pending states — immediate reward reinforces behavior.

Soroban Smart Contracts

On-chain task lifecycle: create, submit, approve, pay — trustless and enforceable.

Built for the Philippines

PH-focused features: PHPC integration, OFW vault top-ups, peso-pegged savings planned.

"For micro-rewards in an emerging market, Stellar isn't just a good choice — it's the only choice."

How It Works Under the Hood

- **Mobile**

React Native · Expo · TypeScript · SecureStore · Stellar SDK

- **Backend**

Node.js · Express · SQLite · Sponsor wallet · node-cron · IPFS relay

- **Blockchain & Storage**

Stellar Network · Soroban contracts · Horizon & Soroban RPC · Pinata/IPFS for immutable photo CIDs

Stack summary highlights the secure, low-cost, real-time flow that powers TOKA transfers and proof validation.

The Opportunity

Total Addressable Market

- 🌐 **1.8M OFWs** sending ₱1.6 Trillion annually
- 👦 **~27M** Filipino children (ages 5–17)
- 📱 **73%** smartphone penetration in PH (2025)

Beachhead: Families with at least one parent abroad and school-age children (8–18).

Revenue Model

Vault Top-Up Fee (0.5%)

Parents fund the family vault
— we take 0.5% on top-ups
(cheap remittance alternative).

Premium Family Plan

₱299/month: unlimited
children, analytics, multi-
vaults, priority support.

Ecosystem Grants

Aligned with Stellar Development Foundation grants for inclusion and education.

📌 "Every Filipino family is already a micro-economy. Toka just puts it on the blockchain."

Speaker note: The 0.5% vault fee is the strongest model — maps to existing behavior and minimizes habit change.

Every Filipino Family is Already a Micro-Economy.

Toka puts it on the blockchain.

The Ask

- 🏆 For Judges: Recognize that financial literacy can start at home — Stellar makes it scalable.
- 🙌 For Mentors: Product feedback, OFW network introductions, PHPC integration guidance.
- 🌱 For the Ecosystem: Support to grow Toka into the on-chain financial literacy layer for Filipino families.
